Maytag® Comfort

Whom can you trust? With so many brands and products competing for your attention, it can be difficult to know which ones you can trust. For more than a century, families like yours have trusted their homes to Maytag for appliances that are dependable, reliable and worry-free. Now you can entrust your home comfort to Maytag and enjoy peace of mind every day.

GAS/ELECTRIC PACKS FOR SPACE- SAVING COMFORT

A gas/electric pack combines the convenient electric cooling of an air conditioner with the energy-efficient gas heat of a furnace, all in one space-saving outdoor unit. Your Maytag heating and cooling dealer can determine if a gas/electric pack is the best solution for your home comfort needs.

Dependability from the inside-out

Below are key features and benefits of the Maytag M120 Series 13 SEER/80 AFUE* gas/electric pack.

- Each unit offers Maytag's 12-year Worry-Free Limited Warranty on parts, and a limited lifetime heat exchanger warranty to give you peace of mind.
- Our Dependability Promise states that your entire unit will be replaced in the first year should your compressor or heat exchanger fail. See your warranty for details.
- The galvanized steel cabinet with a protective coating resists corrosion 50% better than comparable units.
- Wire guard coated with earth-friendly epoxy and mesh hail guard protect against damage from yard hazards.
- Indoor and outdoor coils optimize heat transfer and increase durability and reliability.
- Low vibration, high-efficiency fan blades and custom condenser fan provide quiet operation.
- Environmentally friendly Smart Cool 410™ refrigerant is non-ozone depleting.

* SEER: Seasonal Energy Efficiency Ratio for cooling
AFUE: Annual Fuel Utilization Efficiency for heating

DEPEND ON MAYTAG®

Just as you expect from Maytag, your M120 Series gas/electric pack offers one of the best warranties available in the industry. The 12-year Worry-Free Limited Warranty on parts reflects Maytag's commitment to you. Ask your select Maytag heating and cooling dealer for details, or visit us at www.maytaghvac.com.

SAVING MONEY AND CONSERVING ENERGY

Your gas/electric pack's energy efficiency is rated in Seasonal Energy Efficiency Ratio (SEER). SEER measures how efficiently the unit cools your home while AFUE measures the unit's heating efficiency. The higher the ratings, the more efficiently the unit performs. Depending on your home and climate, a gas/electric pack may handle your heating and cooling needs more efficiently than a separate furnace and air conditioner.

CREATE TOTAL INDOOR COMFORT

Thermostat

Humidifier

Air Cleaner

Your outdoor unit is only one part of the comfort system that affects your air quality and energy savings. The following system components from Maytag can improve indoor air quality and help ensure the performance of your packaged unit.

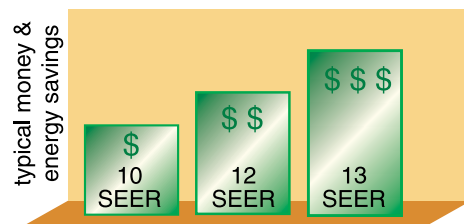

UV Germicidal Lamps: Installing an ultraviolet accessory on your gas/electric pack helps eliminate odor-causing mold and fungus that can develop in an evaporator coil or drain pan.

Programmable Thermostat: The thermostat automatically adjusts your indoor temperature to accommodate both your home and away schedules, thereby reducing energy costs.

Humidifier: Climates with dry air can irritate skin and trigger allergies, as well as cause furniture and dry wall to crack. A whole-house humidifier helps maintain appropriate moisture levels within your home.

Electronic Air Cleaner: Improve indoor air filtration with an electronic air cleaner that removes 95% of household allergens, such as dust mites, pollen and smoke.

For more information about these and other Maytag products, please consult your select Maytag heating and cooling dealer.

Seasonal Energy Efficiency Ratio (SEER)

Your Maytag heating and cooling dealer can offer you the information you need to help you make the best decision for maximum home comfort and energy savings.

Maytag Large Packaged Systems feature Smart Cool 410™ refrigerant, an earth-friendly, non-ozone-depleting refrigerant.
