R-410A

**INTERTUERM
INTERTHERM®**

Exclusively made for your Manufactured Home.

While there are many choices when considering air conditioners and heat pumps, few are designed and tested specifically for use in manufactured homes.

An Intertherm 13 SEER packaged air conditioner or heat pump offers maximum efficiency and system dependability for your manufactured home.

The more you learn about our manufacturing process, the more you'll see that no other heating and cooling manufacturer compares to Intertherm's product quality — quality made possible through Demand Flow Technology™. While other companies test products at random, we use 100% computer-automated testing on every Intertherm product to eliminate human error in the final analysis of product quality. We are the only heating and cooling manufacturer to be DFT certified.

Intertherm is a household name in the manufactured housing industry, with over 75 years of experience. Given our history and dedication to the manufactured housing industry, it is easy to see why most new manufactured homes are built with our heating systems, and when applicable, are equipped with our cooling systems too. You can rely on your Intertherm expert to make your home more comfortable with digital thermostats and other manufactured home accessories.

It's a comfort to know that Intertherm is made for your manufactured home, and it's a comfort you can feel.

Features & Benefits

- Environmentally friendly R-410A refrigerant is non-ozone depleting.
- Compact footprint and low profile make unit easy to install and transport. Self-contained unit installs on the outside of your manufactured home to maximize indoor living space.
- Intertherm coils are designed to optimize heat transfer and increase durability and reliability.
- Plastic-coated grille and plastic mesh hail guard protect coil from damage from extreme weather and flying debris.
- Permanently lubricated motor delivers long-lasting reliability and quiet operation.
- Outdoor thermostat is standard on heat pumps.

Extend your standard 1-year parts and labor warranty to 5 or 10 years under our Watchdog Protection Plan. If you ever sell your home, the protection plan is transferred to the new owner at no cost.

Features and Benefits exclusive to the Extra-High Efficiency model:

- State-of-the-art scroll compressors on 13 SEER models improve efficiency for economical comfort.
- The compressor has a 10 year standard warranty.
