

## M120 SERIES

# 13 SEER, R-410A Packaged Air Conditioners & Heat Pumps

**Smart  
Cool™**  
410

## Make it easy by making it Maytag®

You have enough difficult choices to make besides choosing an air conditioner or heat pump, so make your life easier by selecting the name you already know and trust: Maytag. When you purchase a Maytag packaged air conditioner or heat pump, you will join the millions of families who have depended on Maytag products for more than 100 years. And true to form, Maytag has coupled its products with one of the best warranties available in the industry.

## DEPENDABILITY FROM THE INSIDE-OUT

Below are the features and benefits of Maytag's 13 SEER\* packaged air conditioners and heat pumps.

- The galvanized steel cabinet with a protective coating resists corrosion 50% better than comparable units.
- Each unit offers Maytag's 12-year Worry-Free Limited Warranty on parts to give you peace of mind.
- Our Dependability Promise states that your entire air conditioner or heat pump will be replaced in the first year should your compressor fail. See your warranty for details.
- The indoor and outdoor coils optimize heat transfer, minimize cost and increase durability and reliability.
- The no-rust plastic-coated coil guard and mesh hail guard protect against damage from yard hazards.
- Environmentally friendly R-410A refrigerant is non-ozone depleting.

\* SEER: Seasonal Energy Efficiency Ratio

## DEPEND ON MAYTAG®

Just as you expect from Maytag, your M120 Series 13 SEER packaged air conditioner or heat pump offers one of the best warranties available in the industry. The Worry-Free Warranty, a 12-year limited warranty on parts reflects Maytag's commitment to you. Ask your select Maytag heating and cooling dealer for details, or visit us at [www.maytaghvac.com](http://www.maytaghvac.com).

## SAVING MONEY AND CONSERVING ENERGY

Your air conditioner or heat pump's Seasonal Energy Efficiency Ratio (SEER) measures how efficiently the unit cools or heats your home. The higher the SEER rating, the more efficiently the unit performs, which results in lower utility bills.

## CREATE TOTAL INDOOR COMFORT

Thermostat

Humidifier

Air Cleaner

Your packaged air conditioner or heat pump is only one part of the comfort system that affects your air quality and energy savings. The following system components from Maytag can improve indoor air quality and help ensure the performance of your packaged unit.

**Programmable Thermostat:** The thermostat automatically adjusts your indoor temperature to accommodate both your home and away schedules, thereby reducing energy costs.

**UV Germicidal Lamps:** Installing an ultra-violet accessory on your unit helps eliminate odor-causing mold and fungus that can develop in the wet area of an evaporator coil or drain pan.

**Humidifier:** Climates with dry air can irritate your skin and trigger allergies, as well as cause furniture and dry wall to crack. A whole-house humidifier helps maintain appropriate moisture levels within your home.

**Electronic Air Cleaner:** Improve indoor air filtration with an electronic air cleaner that can remove 95% of household allergens, such as dust mites, pollen and smoke.

For more information about these and other Maytag accessory products, please consult your select Maytag heating and cooling dealer.

Our Dependability Promise states that your entire air conditioner or heat pump will be replaced in the first year should your compressor fail. See your warranty for details.

### Environmentally Smart

Maytag Large Package Systems feature Smart Cool 410™ refrigerant, an earth-friendly, non-ozone-depleting refrigerant.
