BROAN®
HEATING AND COOLING SYSTEMS

# Built exclusively for manufactured homes

**80% - 83% AFUE HIGH-EFFICIENCY GAS & OIL FURNACES**

# EXCLUSIVELY MADE FOR YOUR MANUFACTURED HOME.

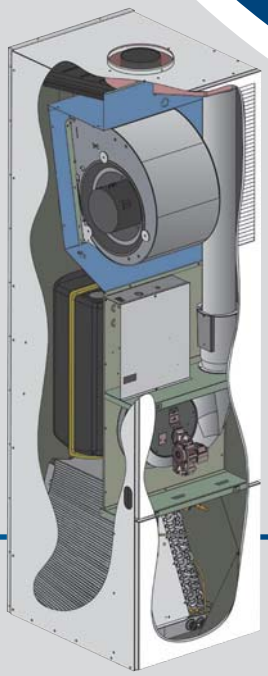

COMFORT AND RELIABILITY

Today, the manufactured home is a sophisticated, affordable home that is a smart choice for many buyers. Equally smart is knowing that your manufactured home furnace is just that – a manufactured home furnace. Specifically designed for your manufactured home, Broan gas and oil furnaces offer high efficiency and system dependability.

The more you learn how we design and build your heating and cooling system, the more you'll see that no other heating and cooling manufacturer compares to Broan's product quality – quality made possible through Demand Flow Technology. While other companies test products at random, we use 100% computer-automated testing on every Broan product to eliminate human error in the final analysis of product quality. We are the only heating and cooling manufacturer to be DFT certified.

You can rely on your Broan heating and cooling expert to make your home more comfortable with digital thermostats and other manufactured home accessories.

It's a comfort to know that Broan is made for your manufactured home, and it's a comfort you can feel.

## FEATURES & BENEFITS

Below are key features and benefits of MG1 Broan Gas and M5 Oil Gun furnaces:

- Models with coil cabinet for shorter cooling coils.
- Models without coil cabinet integrated for cooling applications that need separate taller cooling coils.
- Proven components ensure high quality and dependability.
- Insulated cabinet ensures minimized heat loss and quiet operation.
- All models are air conditioning-ready with built-in blower delays. No relays needed!
- Powder coated finish protects against rust and other corrosion.
- All units and each component are tested on the manufacturing line to ensure quality.
- Standard one-year limited parts and 10-year limited heat exchanger warranty. Contact your Broan contractor for specific warranty details.

If installed in SCAQMD only: These furnaces do not meet the SCAQMD Rule 1111 14 ng/J NOx emission limit (14 ng/J), and thus are subject to a mitigation fee of up to $450. These furnaces are not eligible for the Clean Air Furnace Rebate Program: www.CleanAirFurnaceRebate.com.

**Additional features on 83% AFUE Broan M5 Oil Gun furnace models:**

- Designed for all sizes of manufactured and modular homes, and can be installed in a utility room, enclosed closet or alcove.
- Heavy-gauge aluminized steel heat exchanger ensures long life and efficiency.
- Sealed combustion system vents exhaust gas directly outdoors and draws in 100% outside air for the burner.
- Easy open pawl latch secures the door firmly for transit, yet allows easy removal for access.
- Room air is cleaner with the large, effective permanent washable air filter.
- High efficiency drum heat exchanger delivers optimum heat transfer with low air resistance.
- Reliable burner with uniform flame pattern extends life of heat exchanger.
