NuTone®

High-performance gas furnaces

SINGLE-STAGE, FIXED-SPEED FURNACES
80% AFUE & 95% AFUE ULTRA LOW NOx

HIGH-PERFORMANCE GAS FURNACES

Single-Stage with Fixed-Speed Blower

For your life. style. home.™

NuTone heating and cooling systems can clean your air, adjust indoor temperatures by room and control humidity. All while saving you money. Plus, NuTone offers industry-leading product warranties on furnaces, air conditioners, heat pumps and more. You can trust NuTone to comfort your life, style and home.

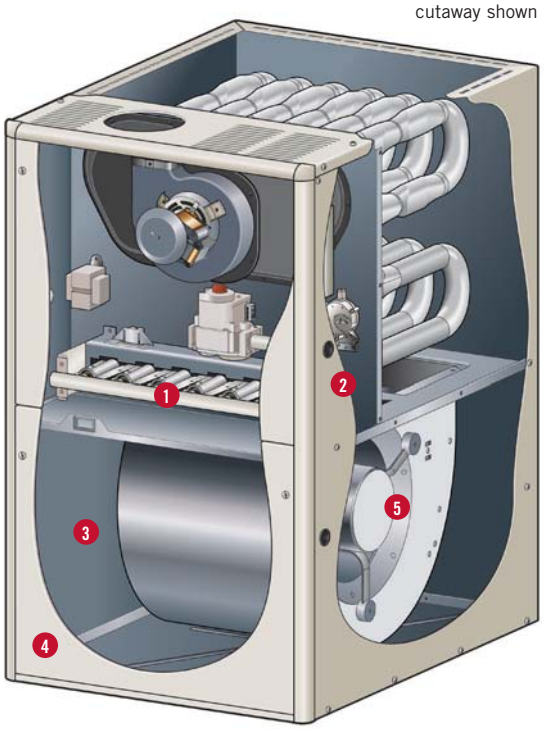

- **Long-lasting peace of mind.** Every furnace is triple checked at each manufacturing stage, for an average of 234 quality checks as your unit is built. In addition, all electrical and mechanical components are 100% fired and tested on the manufacturing line. When your contractor arrives, you can be sure that only the highest quality furnace is being delivered to your home.
- **Total comfort.** Great airflow and quiet performance are part of the NuTone comfort equation.
- **Designed for easy care.** Smooth and practical lines make your NuTone furnace attractive on the outside. All units are finished with a silicone protective polyurethane finish. This step protects your unit from corrosion 50% more than standard outdoor finishes.
- **Built to last.** Heavy-gauge aluminized steel is used for long life.

Features and Benefits

1. Multiport, in-shot burner design and location of inducer and air vents assures cleaner, more-efficient combustion
2. Galvanized steel cabinet for added strength and durability
3. Fully insulated cabinet and blower compartment for quieter operation
4. Silicone-polyurethane finish provides superior scratch and corrosion resistance for looks that last
5. A Factory installed ECM fixed-speed direct-drive motor provides higher torque and operating speeds for improved airflow capacity

   B Smoother motor operation reduces noise and lowers winding temperatures that help to extend bearing-life of the motor

80% AFUE ultra-low NOx single-stage, fixed-speed cutaway shown

This furnace series is approved and certified by the SCAQMD and the SJVAPC Districts in the state of California.

Breathe Easy, Save Big

Comfort is nice, but saving money on monthly heating costs is even better. An economical single-stage gas furnace can also reduce your energy bills by hundreds of dollars each season when compared to older, inefficient furnaces. So when utility bills come due, you can breathe a lot easier.

	Ultra-Low NOx	High Efficiency	Extra High Efficiency	Upflow/ Horizontal	Downflow	ECM Motor
80% AFUE Gas Furnace	✓	✓		✓	N/A	✓
95% AFUE Gas Furnace	✓		✓	✓	N/A	✓

Earth-friendly operation.

An ultra-low NOx gas furnace is engineered to reduce NOx emissions by 65%. NOx gases are formed during the combustion process when nitrogen and oxygen react at high temperatures. The ultra-low NOx furnace utilizes a pre-mix burner with a woven ceramic fiber material developed for the space program. Through this technology, the reduction of NOx results in a decrease of smog and acid rain. This furnace offers an earth-friendly option for the environmentally-conscious homeowner. The NOx emissions for these furnaces are so far below the standard for low NOx furnaces they qualify as ultra-low NOx.

3-Year Heating Savings

80% AFUE & 95% AFUE units vs. 65% AFUE units.

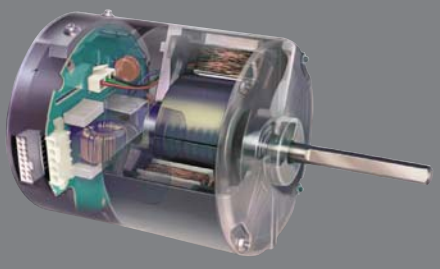

AFUE—Annual Fuel Utilization Efficiency.

AFUE measures the amount of heat actually delivered to your house compared to the amount of fuel that you must supply to the furnace. Thus, a furnace that has an 80% AFUE rating converts 80% of the fuel that you supply to heat—the other 20% is lost out of the chimney. As ratings increase, so does unit efficiency.

Dollar amounts computed at $.092 ccf, for 2,000 full-load heating hours and a system rated at 60,000 Btuh. Actual savings may vary depending on climate conditions, fuel rates, and patterns of usage according to individual lifestyle.

The benefits of an ECM direct-drive motor.

These NuTone gas furnaces include a factory-installed ECM motor for efficient, multi-speed performance. ECM blower motor technology, under normal operating conditions ensures constant comfort for the homeowner because the motor will automatically maintain its programmed level of airflow even if there are dynamic changes in static pressure. Better indoor air quality can be achieved quietly and inexpensively with the ECM blower motor because it can be set to run continuously at reduced airflow levels between heating or cooling cycles. This allows the air to be filtered without excessive drafts and without sacrificing efficiency.

NuTone 10-Year Limited Warranty

10-Year All Parts
When a product is truly built to exacting standards of quality and durability, the manufacturer's confidence is reflected in its warranty. NuTone heating and cooling products offer one of the best warranties in the business— 10 years on all parts when product is registered. See warranty details for more information.

10-Year NuTone Quality Pledge
If the heat exchanger (the major component of your furnace) or the compressor (the most important part of your air conditioner and heat pump) fails within the first 10 years when registered, we'll replace the product with like product under the NuTone Quality Pledge program. A matched system is required to qualify for the NuTone Quality Pledge.

Limited Lifetime Heat Exchanger Warranty
When you register your new NuTone furnace or gas/electric packaged system, we will also extend the heat exchanger warranty from 20 years to the limited lifetime heat exchanger warranty.

10-Year on Air Handlers & Coils
When you install and register your new NuTone air handler or coil with your new NuTone system, we will also extend the warranty to the 10-Year Limited Parts Warranty.

10-Year on Indoor Air Quality Products
When you install and register any of our Partners Choice® Indoor Air Quality with your new NuTone system, we will also extend the accessory warranties to the 10-Year Limited Parts Warranty.

Commercial Applications
Equipment utilized in commercial applications carries a 1-Year parts warranty, 5-Year compressor warranty and a 10-Year heat exchanger warranty.

Warranty Registration
To assure you take advantage of these longer warranties, register your system within 60 days of installation (or within 60 days of occupancy of a new residentially constructed home with these products) at www.nutonehvac.com. See warranty details for more information.

Extended Warranty Protection
While your NuTone warranty covers parts, it does not cover the cost of labor charged by your contractor for service and repair. However, extended labor protection plans are available to cover labor costs associated with repairs. Your contractor may offer various coverage plans; we recommend you look for the Contractors' Preferred Protection Plan brand approved for NuTone.

* Warranties not registered default to 3 or 5 years.
