

Westinghouse

iQ Zone™...

... zoning system for retrofit  
or new residential

You can be sure...  
if it's Westinghouse

## We're all about total comfort in every room of your home.

Today's homes are larger and have more heating and cooling challenges than ever before. Zoning was developed to provide homeowners with total comfort on every floor and in every room of their home. From the upstairs bedrooms to the finished lower level to the cathedral ceiling great room, zoning provides comfort.

With zoning, living spaces are essentially divided into separate comfort zones. The different comfort zones can either be designated room-by-room, or by a group of rooms, and are controlled by their own thermostat.

Westinghouse gives you the option to customize up to eight different comfort zones. Air flow to each zone can be sent where it is needed depending on changing climate conditions, or activities during the course of a day.

## The very best in home comfort

Perfection is possible with a Westinghouse iQ Drive® heating and cooling system paired with an iQ Zone™ zoning system. iQ Drive delivers constant comfort with extreme energy efficiency – up to 24.5 SEER for air conditioners, 22 SEER for heat pumps and 97+% AFUE for furnaces.

iQ Zone takes that comfort to the next level by allowing you to have different temperature controls for different areas of your home. Ask your Westinghouse dealer about iQ Drive with iQ Zone, the very best comfort for your home.

Kitchen

## Extreme energy savings.

Of course, when you're fine-tuning your room temperatures, you're also fine-tuning your energy savings. At up to 24.5 SEER, the iQ Drive air conditioner and heat pump are the nation's most efficient comfort systems. By adding iQ Zone, you can save up to an estimated 12 percent more on your energy bills. The biggest difference is in winter, so the colder your climate, the more you'll save.

10 SEER	\$432 Annual Operating Costs
12 SEER	\$360 Annual Operating Costs
13 SEER	\$332 Annual Operating Costs
14 SEER	\$308 Annual Operating Costs
15 SEER	\$288 Annual Operating Costs
16 SEER	\$270 Annual Operating Costs
24.5 SEER	\$188 Annual Operating Costs
24.5 SEER	\$166 Annual Operating Costs with iQ Zone

## How iQ Zone™ works.

iQ Zone lets you customize your comfort by dividing your home into several independent comfort zones, all powered by your iQ Drive system. Each zone in your home will have its own thermostat. A master controller gets continuous feedback from the zone thermostats and the iQ Drive units. It automatically opens and closes motorized dampers in your ductwork to control the amount of warm or cool air going to each zone, thereby creating the ideal temperature. All you do is set the individual thermostats. iQ Zone handles the rest.

iQ Zone

*A Westinghouse  
iQ Drive® system  
is the most energy  
efficient, quietest  
system you can buy.*

## Whisper quiet operation.

Your iQ Drive system is already the quietest on the market. So it's good to know that your zoning system will be just as quiet. The only way you'll know iQ Zone is operating is because every room will have the total comfort you prescribe.
