

M120 SERIES

92.1 AFUE Condensing Gas Furnaces Single-Stage, Fixed-Speed

DEPENDABILITY FROM THE INSIDE-OUT

Below are key features and benefits of Maytag M120 Series 92.1 AFUE* high-efficiency condensing gas furnaces.

- Each unit offers Maytag's 12-year Worry-Free Limited Warranty on parts, and a limited lifetime heat exchanger warranty.
- Our Dependability Promise states that your entire unit will be replaced in the first year should the heat exchanger fail. See your warranty for details.
- A fixed blower delay setting delivers a comfortable duct temperature at furnace start-up.
- The unique burner design and the insulated blower compartment assure clean and quiet operation.
- A minimum of 92.1% energy efficiency offers long-term energy savings.
- At less than 35 inches tall, the unit's short profile makes it ideal for tight spaces, such as utility rooms or closets.

* AFUE: Annual Fuel Utilization Efficiency

Come Home to Maytag®

Whether you've had a tough day at work or are returning from a family vacation, there's something wonderful about coming home. You expect your home to be a comfortable place for you, and Maytag helps make it just that. When you buy a Maytag M120 Series condensing gas furnace, you can count on a dependable product that will keep your home warm for many cold seasons to come. And to ensure that comfort, each Maytag high-efficiency condensing gas furnace comes with one of the most comprehensive warranties available.

DEPEND ON MAYTAG®

Just as you expect from Maytag, your M120 Series condensing gas furnace offers one of the best warranties available in the industry. The 12-year Worry-Free Limited Warranty on parts reflects Maytag's commitment to you. Ask your select Maytag heating and cooling dealer for details, or visit us at www.maytaghvac.com.

SAVE MONEY AND ENERGY

Your Maytag gas furnace has been evaluated with the Annual Fuel Utilization Efficiency scale, or AFUE. The higher the number, the more efficiently your furnace operates. The 92.1 AFUE rating, which means that the furnace functions at or above 92.1% efficiency, is one of the highest ratings available on gas furnaces today.

A high-efficiency system uses less energy than lower efficiency units and can save you money on utility bills.

CREATE TOTAL INDOOR COMFORT

Indoor Coil

Thermostat

Air Cleaner

Humidifier

Your gas furnace is only one part of the comfort system that affects your air quality and energy savings. The following system components from Maytag can improve indoor air quality and help ensure the optimum performance of your comfort system.

Indoor Coil: When you install a new split system air conditioner, Maytag recommends you replace the existing indoor coil with a matched Maytag coil to guarantee maximum efficiency and performance of your outdoor unit. (Please note the Dependability Promise is valid only when you install both the outdoor air conditioner and indoor coil.)

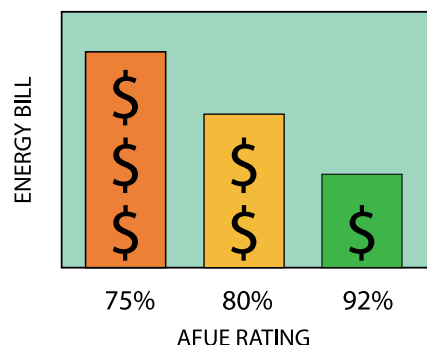

Programmable Thermostat: The thermostat automatically adjusts your indoor temperature to accommodate both your home and away schedules, thereby reducing energy costs.

Electronic Air Cleaner: Improve indoor air filtration with an electronic air cleaner that can remove 95% of household allergens, such as dust mites, pollen and smoke.

UV Germicidal Lamps: Installing an ultraviolet accessory on your furnace or air handler helps eliminate odor-causing mold and fungus that can develop in the wet area of an evaporator coil or drain pan.

Humidifier: Climates with dry air can irritate your skin and trigger allergies, as well as cause furniture and dry wall to crack. A whole-house humidifier helps maintain appropriate moisture levels within your home.

For more information about these and other Maytag products, please consult your select Maytag heating and cooling dealer.
