BROAN®
HEATING AND COOLING SYSTEMS

Built exclusively for manufactured homes

95% & 96% AFUE
EXTRA HIGH-EFFICIENCY
MG2 DOWNFLOW
GAS FURNACES

THE BROAN MG2 95% & 96% AFUE GAS FURNACES ARE AN OUTSTANDING CHOICE FOR EXTRA HIGH-EFFICIENCY PERFORMANCE.

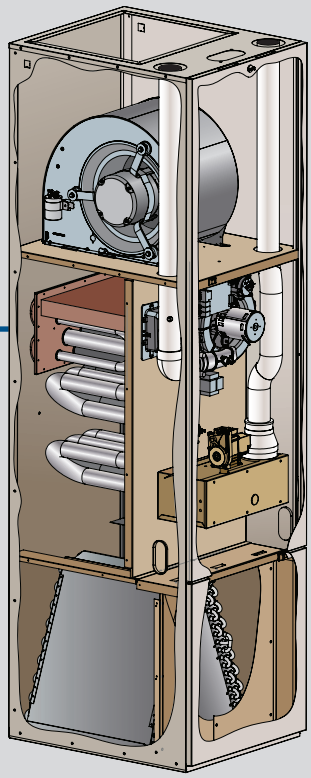

COMFORT AND RELIABILITY

Today, the manufactured home is a sophisticated, affordable home that is a smart choice for many buyers. Equally smart is knowing that your manufactured home furnace is just that – a manufactured home furnace. Specifically designed for your manufactured home, a Broan MG2 downflow gas furnace offers high efficiency and system dependability. This is the only 96% high-efficiency furnace that will exactly fit in the space designed for the furnace.

The more you learn about our manufacturing process, the more you'll see that no other heating and cooling manufacturer compares to Broan's product quality – quality made possible through Demand Flow Technology. While other companies test products at random, we use 100% computer-automated testing on every Broan product to eliminate human error in the final analysis of product quality. We are the only heating and cooling manufacturer to be DFT certified.

You can rely on your Broan expert to make your home more comfortable with digital thermostats and other manufactured home accessories.

It's a comfort to know that Broan is made for your manufactured home, and it's a comfort you can feel.

MG2R & MG2S FEATURES & BENEFITS

- The only 95% & 96% AFUE furnace that fits a standard 20" manufactured housing footprint.
- Extremely efficient for lower gas bills. May qualify for local rebates and incentives.
- Dependable, hot surface igniter utilizes proven SmartLite® technology for longer igniter life.
- Top Return Models offer quieter operation and additional installation flexibility.
- Proven components ensure high quality and dependability.
- Stainless steel secondary heat exchanger for a long life.
- May be vertically or horizontally vented using a two-pipe system for maximum flexibility in installation.
- Fully insulated cabinet minimizes heat loss and provides quiet operation.
- Diagnostic lights provide easy troubleshooting
- 100% fired and tested – all units and each component (both mechanical and electrical) are tested on the manufacturing line.
- Standard one-year limited parts and 20-year limited heat exchanger warranty. Replacement MG2 furnaces provide 5-year limited parts warranty by registering at www.nortekhvacwarranty.com. Contact your Broan contractor for specific warranty details.

ADDITIONAL MG2S FEATURES & BENEFITS

- Two-stage gas valve – provides low heat operation during mild outdoor temperatures.
- Fixed-speed blower provides wide range of cooling and heating airflows.
- Two-stage thermostat is optional thanks to optimal staging on the ignition board.

If installed in SCAQMD only: These furnaces do not meet the SCAQMD Rule 1111 14 ng/J NOx emission limit (14 ng/J), and thus are subject to a mitigation fee of up to $450. These furnaces are not eligible for the Clean Air Furnace Rebate Program: www.CleanAirFurnaceRebate.com.
