

SPLIT SYSTEM AND SMALL PACKAGED SYSTEM AIR CONDITIONER PRODUCTS

Built Exclusively for Manufactured Housing

Exclusively Made For Your Manufactured Home.

Today, the manufactured home is a sophisticated, affordable home that is a smart choice for many buyers. Equally smart is knowing that your manufactured home cooling system is just that — a manufactured home cooling system. Specifically designed for your manufactured home, an Intertherm air conditioner, heat pump & packaged system offers high efficiency and system dependability.

The more you learn about our manufacturing process, the more you'll see that no other heating and cooling manufacturer compares to Intertherm's product quality — quality made possible through Demand Flow Technology. While other companies test products at random, we use 100% computer-automated testing on every Intertherm product to eliminate human error in the final analysis of product quality. We are the only heating and cooling manufacturer to be DFT certified.

You can rely on your Intertherm expert to make your home more comfortable with Partners Choice® digital thermostats and other manufactured home accessories. It's a comfort to know that they are made for your manufactured home, and it's a comfort you can feel.

What is SEER2?

SEER2 (Seasonal Energy Efficiency Ratio 2) is the new Department of Energy efficiency standard. SEER is the standard measure of efficiency for central air conditioning systems. The higher the SEER, less electricity is required for a air conditioner unit to do its job. The main difference between SEER and SEER2 is the testing conditions for each rating system. The SEER2 testing conditions are meant to give consumers a clearer, more accurate idea of a unit's efficiency.

Up to 14.3 SEER2 Split System Air Conditioners

Intertherm high-efficiency split system air conditioners fit the bill for your cooling needs.

- Powder coated wire guard and plastic mesh hail guard protect the unit coil from being damaged by balls, lawnmowers, hail, etc.
- Permanently lubricated motor delivers long-lasting reliability and quiet operation.
- One-piece top designed for maximum airflow and quiet operation.
- Composite base pan absorbs sound and is corrosion resistant.
- State-of-the-art compressors improve efficiency for economical comfort.
- High pressure switch for added compressor protection. State-of-the-art compressors improve efficiency for economical comfort.
- Available with quick connect or brazed connections.
- Quick connect systems require no additional charge.
- All-aluminum outdoor coils are lighter in weight and require less refrigerant. They offer increased reliability due to their innovative design.

PERMANENTLY LUBRICATED MOTOR DELIVERS LONG-LASTING RELIABILITY AND QUIET OPERATION.

**Models GSA3ME & GSA3QE
(Up to 14.3 SEER2)**

13.4 SEER2 Packaged Air Conditioners (small footprint)

An Intertherm packaged system will keep your home comfortable year-round.

- Compact footprint and low profile make unit easy to install and transport. These low profile packaged units are self-contained and installed on the outside of your manufactured home freeing up additional living space inside your home.
- Powder coated wire coil guard and plastic mesh hail guard protect coil from damage from extreme weather and flying debris.
- The combination of a permanently lubricated motor and an optimized fan blade work in conjunction to deliver long-lasting reliability and quiet operation.
- Enhanced all-aluminum evaporator and condenser coils reduce unit weight and require less refrigerant than traditional coils.

INTERTHERM COILS ARE DESIGNED TO OPTIMIZE HEAT TRANSFER AND INCREASE DURABILITY AND RELIABILITY.

Models P94RD (13.4 SEER2, 10.6 EER2)

Intertherm Warranty

Intertherm heating and cooling products for manufactured housing carry a one-year warranty on parts and a 5-year compressor warranty.

- 1-Year Limited Parts
- 5-Year Limited Compressor

Extend your standard condenser 1-year limited parts to a 5-year or 10-year limited parts by registering at www.nortekhvawarranty.com. Certain models apply. See warranty document for details.

In addition to the 1-year warranty, Intertherm gas/electric packaged systems and furnaces offer a 10-year limited warranty on heat exchangers. MG2 and CMF furnaces offer a 20-year limited warranty on heat exchangers.

Contact your Intertherm contractor for specific warranty details.
