

L1RC Series

High Efficiency / Direct Vent or Non Direct Vent

Condensing Upflow/Horizontal Gas Furnace

Induced Draft - 92+ AFUE

Input 38,000 - 120,000 Btuh

The compact high efficiency upflow gas furnace may be installed free standing in a utility room, basement, or enclosed in an alcove or closet. An optional kit easily converts it to horizontal application. The extended flush jacket provides a pleasing appearance. The Design is certified by CSA International (Canadian Standards Association). The product is truly designed with the contractor and the consumer in mind.

Features and Benefits

- **100% fired and tested** — All units and each component (both mechanical and electrical) are tested on the manufacturing line.
- **Best packaging in the industry** — Unique design assures product will arrive to the homeowner dent free.
- **Clean and quiet operation** — Due to the unique design of in-shot burners, location of inducer and use of insulation.
- **Fixed 30 second blower delay** at burner start-up assures a warm duct temperature at furnace start-up. Adjustable blower off settings (60, 90, 120 and 180 seconds).
- **Fixed 30-second post purge** increases life of heat exchanger.
- **Dependable, hot surface ignitor** — Innovative application of an appliance type ignitor with a 20-year history of reliability, assures no call-backs because of handling.
- **Color coded wire harness** — Designed to fit the components, all with quick-connect fittings for ease of service and replacement.
- **Tubular primary heat exchanger** — Heavy gauge aluminized steel heat exchanger assures a long life.
- **Stainless steel secondary heat exchanger** assures a long life.
- **40-second fixed cooling cycle blower-off delay (TDR)** increases cooling performance when matched with a NORDYNE coil.
- **Approved for direct vent furnace, category IV venting system** — May be vertically or horizontally vented using either a one-pipe or two-pipe system for maximum flexibility in installation.
- **Fully insulated blower cabinet for quiet operation.**
- **Variable speed blower kit** is available to maximize air conditioner and heat pump efficiencies. On selected units, SEER ratings up to 16 and HSPF ratings up to 8.5 are ARI listed.
- **Multi-speed direct drive blower** — Designed to give a wide range of cooling capacities. 40VA transformer included.
- **LP convertible** — Simple burner orifice and regulator spring change for ease of convertibility.
- **Factory installed drain system** for reliable performance.
- **Diagnostic light** flashes identify limit failure, pressure switch failure and improper ground and polarization — for easy troubleshooting.
- **SmartLite™ Control Board** provides extended life to ignitors programmed to learn the heat-up characteristics of the ignitor so the ignition timing is energized appropriately.
- **Incorporates integrated control board** with connections for electronic air cleaner, humidifier and twinning.
- **Two piece door design** enhances furnace appearance and uses screw fasteners for great fit and accessibility.
- **3 amp fuse protection** against low voltage shorts; protects transformer and control board.
- **Low voltage terminal board** for easy field wiring.
- **Components and Controls** — Designing quality into our products means selecting manufacturers that have a reputation for delivering high quality, dependable products.
- **Warranty** — The best in the industry.
 - 5 year limited parts
 - 2 year mileage
 - 2 year labor
 - Limited lifetime heat exchanger warranty to original owner

FEATURES

High Efficiency Upflow/Horizontal 92+ Gas Furnace

STANDARD EQUIPMENT

Direct vent; draft inducer; pressure switch; redundant main gas control; hot-surface ignition; timed ON/OFF blower controls (TDR); 40VA transformer for air conditioner application; limit controls; direct drive motor; all models can be converted to use L.P. (propane) gas. Factory approved kits *only* must be used and are available as an optional accessory from your NORDYNE distributor.

ACCESSORIES

Kit	Order Number
U.S. LP Conversion Kit (0 to 10,000 ft.)	904090
Canadian LP Gas Conversion Kit (0 to 4,500 ft.)	904091
Fossil Fuel Kit	914762
Side Return Filter Kit	541036
Bottom Return A Cabinet	903088
Filter (20/Box) B Cabinet	903089
C Cabinet	903090
Internal Side Return Filter Wire	903152
Horizontal Positioned Furnace Vent Drain Kit 2"	904079
Horizontal Positioned Furnace Vent Drain Kit 3"	904080
Variable Speed Blower Kit for "B" & "C" Cabinets	904075

****NOTES**

1. Subtract 2.5 ft. for each additional 2" **long** radius elbow, 5 ft. for each additional 2" **short** radius elbow, 3.5 feet for each additional 3" **long** radius elbow, and 7 feet for each additional 3" **short** radius elbow.
2. Two 45 degree elbows are equivalent to one 90 degree elbow.
3. Do not include termination elbows in calculation of vent length
4. This table is applicable for elevations from sea level to 2000 ft. For higher elevations decrease vent pipe lengths by 8% per 1000 ft. of altitude.
5. Only the above pipe materials are approved for use with these condensing furnaces.

 ** Factory Set Heating Speed
 - Not Recommended

Notes:

- Airflow rates of 1800 CFM or more require two return air connections. Data is for operation with filter(s).
- Temperature rises in the table are approximate. Actual temperature rises may vary.
- Temperature rises and airflows for external static pressures greater than 0.5 are for reference only. These conditions are not recommended.
