TECHNICAL SPECIFICATIONS

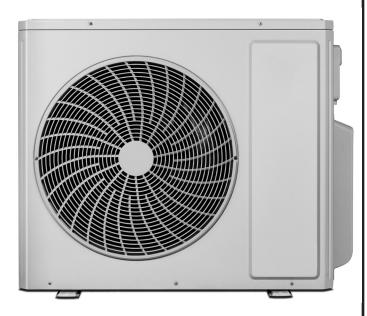

25 SEER2

Single Zone Series

GXH(_)(_)LSK4DH2 GHH(_)(_)LUK4DH2

Up to 25 SEER2, 10.0 HSPF2 Single-Zone Heat Pump

9K – 36K BTUH Capacity

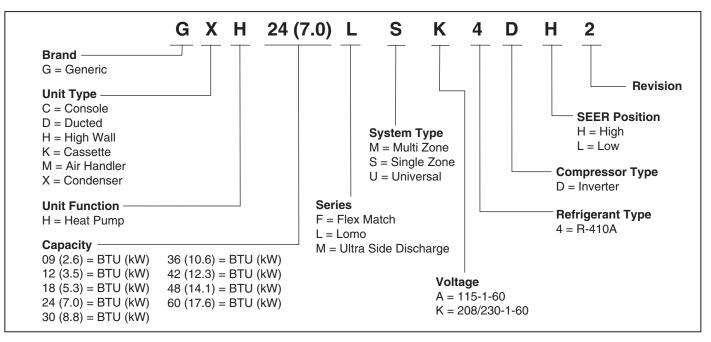

FEATURES and BENEFITS

- Inverter Driven Compressor, Fan, Blower State-of-the-art inverter driven technology that offers wide range of modulation
- Wifi Capable Adjust the operation and temperature from a wifi capable device like a smart phone or tablet
- Flared Piping Connections Ensures easy and quick installation
- Wireless Remote Controller Remote include in all Single-Zone indoor units
- Anti-Corrosion Coils Blue fin coatings improves the heating efficiency, accelerates defrost, and adds significant resistance to corrosive elements
- Intelligent Defrost Intelligent Defrosting is only performed when needed, which reduces energy waste by eliminating the unnecessary defrosting process
- Base Pan Heater prevents freezing and improves heating efficiency during low temperature operation
- Auto Clean After set point temperature is satisfied, fan continues to run to dry inside of indoor unit preventing growth of mold and bacteria
- Superior Comfort Wireless remote controller included with every indoor unit
- **iFeel Operation** mini sensor in the remote control can sense its surrounding temperature, and transmit the signal back to the indoor unit
- **Turbo Cooling** button on the remote control to enjoy increased airflow, which enables the indoor temperature to reach the set temperature in a shorter time
